

New York Stock Market

New York, February 15.—Missouri Pacific was the dominant factor in operations on the stock exchange today. After a day of feverish speculation in the stock, during which it advanced nearly four points, and then fell back almost as much, came the announcement that George J. Gould had sold his interest. It was also reported that representatives of the Kuhn, Loeb, Standard Oil, and German Interests would enter the board at the annual meeting next month. Mr. Gould's statement was not contested, but control of the road was in progress when accepted as indicating that an amicable settlement had been reached. There is the best authority for the statement that no date has been set for the beginning of a movement which has for its purpose the ultimate severance of the Gould family from active management of the various railroads controlled with which it has so long been identified.

Missouri Pacific's swift rise on heavy dealings soon after the opening unsettled the general market. The list grew steadier, however, on the reaction in Missouri Pacific, and remained close to the eight-day level until the end of the session. Missouri Pacific itself fell off nearly a point on announcement of Mr. Gould's coming retirement, and closed with only a fractional net gain.

Passage of the Canadian reciprocity measure by the House of Representatives had little effect in view of the overshadowing interest in Missouri Pacific as was shown by diverse movements of stocks affected by it.

Stocks of oil companies declined still further. Hill stocks were in good demand, and United States Rubber advanced sharply.

A better tone in the pig iron market was reported, and steel prices, though with an advance in price of certain steel specifications, and one of the subsidiaries of the United States Steel Corporations reported orders for 56,000 tons of iron in this week, while the general situation deteriorated, the general industrial situation continuing to be born out in this direction, outward evidences of improvement elsewhere are less patent. From Fall River came the announcement that some of the cotton mills there would be placed on a four-day schedule this week. Exports of merchandise last week were more than \$4,000,000 below those of the previous period.

Trading in the bond market was irregular, with sales, per value, \$2,000,000. United States 3s registered advanced 1-2, and the coupons 1-4 on call. Total sales of stocks for the day, \$22,500 shares.

New York, February 15.—Money on call steady; 3-8-12 per cent.; ruling rate, 2-3-8; closing bid, 2-3-8; offered at 2-1-2. Time loans stronger; sixty days, 3 per cent., and ninety days, 3-1-2 per cent. Short-term notes, 2-1-2; one month, 2-1-2; two months, 2-1-2; three months, 2-1-2 per cent. Sterling exchange easy, with actual business in bankers' bills at \$4,825.00; \$4,827.50 for sixty-day bills, and at \$4,828.50 for 45-53 1-4. Bar silver, 51-5-8. Mexican dollars, 46.

CHICAGO GRAIN MARKET.

Chicago, February 15.—What to-day made a new low record for the season. Anticipation and reciprocity were two bugaboos. The close was 3-1-2, under last night. Other grain suffered severely, corn finishing at a new low. Late sales of grain products varied from 25c cheaper to a 5c advance.

The leading futures ranged as follows:

Open, High, Low, Close.
